

Eisson Alipio

Sr FrontEnd Developer

Summary

I was working at Pitchground for the last 8 months. It was an awesome experience yet I'm looking for a bigger team that would have a product manager, dedicated testers, and else. Pitchground is a startup and it was a fun experience, yet I would like something else.

Looking for a team of developers where I could deliver solutions for the ReactJS application. It would be nice if I would be able to work with NodeJS as well but my main focus is ReactJs.

Working History

Front End Dev

NuOrder, USA

July 2020 - Present

NuORDER is the leading B2B e-commerce platform helping brands deliver a seamless, more collaborative wholesale process, where buyers can browse products, plan assortments and make smarter buys in real-time.
